- 6) Vent

User Guide

Operation Instructions

Please follow the operation instructions to use the Hog Roast Motor.

1) The Hog Roast Motor is for outdoor use, with a suitable sized spit.

The dimensions of the Spit Attachment are as follows:

11mm Wide (without pegs)

32mm Wide (with pegs)

30mm High

This Spit Attachment fits perfectly to a spit head with the following dimensions:

22mm Wide

20mm High

Please Note: Do not use in wet or humid weather conditions. This is an electric product and there can be serious issues if it gets wet.

2) Mount the motor onto the hog roast at a suitable height, in-line with the spit.

3) Attach the spit.

4) Plug the motor into a mains supply and switch on at the power supply.

5) Once the spit is loaded and the hog roast has a heat supply, turn the motor on via the On/Off Switch.

6) The motor should now be rotating the spit.

Please Note: Do not over load the motor- please check the weight capacity.

Troubleshooting

Resolution Guide

Please read through the guide below if you have any issues or faults with your device. The information covers and resolves the majority of frequently asked questions.

Q: The heat isn't cooking the meat evenly.

A: Please make sure the charcoal is evenly distributed along the charcoal tray. Move the charcoal using heat proof tongs. Ensure the meat is even distributed along the spit.

Q: The motor will not rotate the spit.

A: It is possible you are over bearing the maximum load capacity – see Product Specifics. It is also possible you are not evenly distributing the weight of the meat along the spit. Please ensure this is not the issue.

If this is all correct and the motor is still not running, call or email our Support Team, details on the Contact Us page and our friendly and helpful team will listen to any problem and find a resolution. If we can't fix it, we will replace any faulty product up to 1 year of receipt date.

Safety Advice

Safe Working Practice

Please read through the safe working practice to ensure prevention of injury or damage to the device.

Do not operate the device in areas of high temperature or humidity.

Never operate the KuKoo Hog Roaster in wet or low visibility conditions.

Do not overwork the machine.

Turn the power and motor off before changing spit meat.

Only use genuine spare parts to maintain a safe and usable motor.

If damaged, do not operate.

Do not operate if you are drowsy or under the influence of drugs or alcohol – slow responses can cause injuries to the user.

The workstation should be well lit and clear of hazards and flammable/combustible materials.

Keep out of reach of children and do not allow children to operate the machine.

Ensure the tool attachment is securely fastened to the motor before starting the power.

Do not pour water on the electrical housing or near the vents.

Keep clean to prolong working life.

Do not move the appliance during use.

Keep motor wire away from heat.

Use on an even surface.

Do not restrict the air flow to the appliance.

Remove packaging before use.
