Assembly Instructions

Step Two: Assemble the Frame

- 1) Slot your bottom shelf/drawer support into the opening toward the bottom of one of your side panels and secure using the screws provided. Repeat with the three remaining shelves.
- 2) Secure the back panel and front panel to the side panel and shelves using the screws provided.
- 3) Slot the remaining side panel into place and secure using the screws provided.
- 4) Place the top panel into place and secure using the screws provided.
- 5) Slide the drawers into place and secure in your van as required.

Troubleshooting

Resolution Guide

Please read through the guide below if you have any issues or faults with your device. The information covers and resolves the majority of frequently asked questions.

Q: There are parts missing from my order.

A: If there appears to be any part missing from your package contact our Customer Support team via the details on the Contact Us page within 7 days of receipt.

Q: Can I paint my Van Rack?

A: Yes you can. However, the plywood isn't pre-primed. Make sure you apply a primer before you begin painting. The primer will prevent the paint from being affected by the colour of the boards, and it will give it a nice finish.

Q: What sort of tools do I need to assemble the Van Rack?

A: The only tool required to assemble the Van Rack is a screwdriver. All components are pre-drilled, and fixings are provided.

For all other issues please contact our Customer Support department via the details on the Contact page.

Safety Advice

Safe Working Practice

Please read through the safe working practice to ensure prevention of injury or damage to the device.

Ensure the Van Rack is only used indoors/inside a vehicle.

There may be debris and/or sawdust in the pre-drilled holes. Remove this before commencing with assembly. Use gloves to remove it.

Make sure each component is properly and securely locked before continuing with the assembly process.

Make sure the shelf and drawers are correctly assembled before you begin storing items in the Van Rack.

Use appropriate cleaning products to clean the Van Rack.

Make sure you apply a primer before painting.

If using power tools, ensure the appropriate PPE is worn.
