MDF Santa Sleigh

Try **Monster** - Buy **Monster** - Be **Monster**

Specification

Product Description

There may not be sleigh-bells ringing or flying reindeer, but this MDF Santa Sleigh is sure to brighten up any Christmas display!

Featuring a wide central box, there is plenty of space to store presents or your own seasonal products, and it can be painted to suit your own needs!

The flat packed design allows for easy transportation, assembly and dismantling.

All of the components are pre-drilled, so you'll only need a screw driver to insert the fixings. It's recommended that you grab an extra pair of hands to help you when assembling the MDF Santa Sleigh.

Item Contents

Monster Guarantee

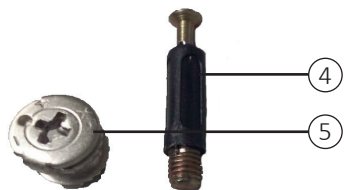

If you wish to return a product in perfect working order, we provide a 30 day returns policy as long as the item is unopened and in a resalable condition.

If for any reason a part is missing please get in touch with us within 7 days on receipt of your order. You can contact our friendly and helpful Customer Support Team via email or call. For full terms and conditions contact our Support Department via the details on the Contact Us page.

Specification

Product Features

1. Front Panel
2. Side Panel
3. Back Panel
4. Cam Bolt
5. Cam Lock

User Guide

Assembly Instructions

1. Insert the cam locks into all of the large round holes in the panels and screw the cam bolts into the smaller holes.

Ensure that the cam lock arrow is facing the direction of the oncoming cam bolt.

To lock the cam and bolt together, insert the bolt into the cam lock and turn the cam lock clockwise until it is locked tight.

2. Lay one of your side panels flat and put the back panel into place. Secure the cam fixings.
3. Repeat Step 2 with the bottom and front panels.
4. Put the remaining side panel on top of the front, bottom and back panels and secure the cam fixings.
5. Place upright and your Santa Sleigh is ready to be decorated and used!

Troubleshooting

Resolution Guide

Please read through the guide below if you have any issues or faults with your device. The information covers and resolves the majority of frequently asked questions.

Q: There are parts missing from my order.

A: If there appears to be any part missing from your package contact our Customer Support team via the details on the Contact Us page within 7 days of receipt.

Q: The cam locks and bolts will not fit into the holes correctly.

A: There may be some saw dust/debris in the holes. This will need to be removed before building recommences. Use gloves to remove any debris, just in case wood splinters are present.

Q: Where can I put the MDF Santa Sleigh?

A: The MDF can be susceptible to bend/swell in extremely damp or warm conditions. This particular MDF Santa Sleigh should be used indoors rather than in an external environment.

Q: Can I paint my MDF Santa Sleigh?

A: Yes you can. However, this MDF isn't pre-primed. Make sure you apply a primer before you begin painting. The primer will prevent the paint from being affected by the colour of the MDF boards, and it will give it a nice finish.

Q: What sort of tools do I need to assemble the MDF Santa Sleigh?

A: The only tool required to assemble the MDF Santa Sleigh is a screwdriver. All components are pre-drilled, and fixings are provided.

For all other issues please contact our Customer Support department via the details on the Contact page.

Safety Advice

Safe Working Practice

Please read through the safe working practice to ensure prevention of injury or damage to the device.

Ensure the MDF Santa Sleigh is only used indoors.

Be careful when lifting and assembling the components as they are quite fragile and heavy.

There may be debris and/or sawdust in the pre-drilled holes. Remove this before commencing with assembly. Use gloves to remove it.

Make sure each component is properly and securely locked before continuing with the assembly process.

Make sure the sleigh correctly assembled before you begin storing items inside.

Use appropriate cleaning products to clean the MDF Santa Sleigh.

You need 2 people when assembling/dismantling and moving the MDF Santa Sleigh.

Make sure you apply a primer before painting the MDF Santa Sleigh.

We strongly recommend the use of respiratory PPE (rated P2 as a minimum) when cutting, sanding or drilling this product to prevent inhalation of harmful dust.

Ensure any modifications are made in open air, a safe distance away from others.
