

# WARNING

SECURE DOOR BEFORE OPERATING MACHINE.  
FAILURE TO DO SO COULD RESULT IN SERIOUS INJURY.

## PREVENTIVE MAINTENANCE PROCEDURE

WARNING: DISCONNECT MACHINE FROM AIR SUPPLY AND ELECTRICAL OUTLETS BEFORE PERFORMING MAINTENANCE.

1. Clean dust collector and filters regularly.
2. Check nozzles, orifices and gloves for wear/damage before each use.
3. Check abrasive. Abrasive wears out and needs to be replaced regularly.
4. Clean inside of cabinet regularly.
5. Avoid moisture in the air lines and in the abrasive.
6. Check door gaskets for leaks weekly.
7. Do not exceed 100PSI.
