

DIELINE SIZE 刀模线尺寸: 149mm x 60mm

! SAFE WORKING PRACTICE

Operators must not have loose hair or wear loose clothing. Never operate the machine without the plucking tub in place. A safety proximity switch does not allow operation without the tub. Do not disable this switch. Replace the switch if it does not stop unit operation when tub is removed from the feather pan.

! SAFE WORKING PRACTICE

Keep hands out of feather chute. Do not attempt to clear feathers or other debris from the feather chute with the unit plugged in. Unplug the unit before cleaning or removing foreign matter such as bird heads from the plucker. Never put hands or any other body parts below the top of the plane of the plucking tub while the plucker is running. Keep hands clear of the moving parts.
