

OUTDOOR ROLLING GARDEN SEAT

25488

INSTRUCTION MANUAL

www.monstershop.co.uk

SPECIFICATION

PRODUCT DESCRIPTION

Thank you for purchasing the MonsterShop Outdoor Rolling Garden Seat.

This highly versatile product is a sturdy and adjustable seat which is perfect for the gardening enthusiast. The seat features a 360-swivel chair which allows users to complete their gardening quickly and comfortably from a seated position. The sturdy pneumatic tyres can also tackle any terrain and allows for smooth movement while maneuvering around the outdoors.

In addition, this gardening seat offers ample storage space for transporting any gardening equipment to and from the desired location.

7. Attach the seat to the seat column using 4 M10 crosshead C/S machine screws, 4 M10 washers and 4 M10 nuts.
8. Screw the seat column into the threaded hole in the frame.

USER GUIDE

OPERATING INSTRUCTIONS

Using the Garden Seat:

1. Tow the seat to the desired location.
2. Adjust the seat to the correct height.
3. Chock the wheels if necessary (chocks not supplied).

After using the Garden Seat:

1. Clean as necessary to remove any mud or leaves etc.
2. Thoroughly dry the Garden Seat before storage.
3. Lubricate all moving parts with a little light oil.

TROUBLESHOOTING

RESOLUTION GUIDE

WHAT DO I DO IF THERE ARE MISSING PARTS FROM MY ORDER?

If there appears to be any part missing from your order, contact our friendly and helpful Customer Support Team within 7 days of receipt.

The MonsterShop Outdoor Rolling Garden Seat is extremely robust, and if cared for is unlikely to suffer any major problems.

Punctures:

Any pneumatic tyre is susceptible to punctures. The tyres on the Outdoor Rolling Garden Seat are very strong but it's possible that they may suffer a puncture in some circumstances. If this happens proceed as follows:

1. Remove the affected wheel from the frame.
2. The wheel is in two halves. Separate these by removing the four nuts and bolts holding them together.
3. Once the wheel halves have been removed from the tyre it is possible to access the inner tube.
4. Remove the inner tube and locate/repair the puncture exactly as a bicycle inner tube.
5. Push the inner tube back into the tyre.
6. Locate the inflation tube into the hole in the front wheel half.
7. Position the rear wheel half lining up the bolt holes.
8. Bolt the two wheel halves together.
9. Inflate the tyre to a pressure of 30 p.s.i. (2.1 bar).
10. Refit the wheel and secure in place.
