Q-Rax Workbench

Try **Monster** - Buy **Monster** - Be **Monster**

Specification

Product Description

The Q-Rax Workbench is a perfect storage and working area solution suited towards any man-cave including; garages, warehouses, stock rooms and workshops.

The workbench frame is made from 1.2mm heavy duty steel and combined with the Q-shaped lock and key mechanism means it is very quick to assemble and can hold a massive 200KG. Finished with two layers of powder coated paint, this durable workbench will maintain its excellent condition for even longer.

The Q-Rax Workbench is 100% bolt-less, making it easy to assemble and only requiring the use of a rubber mallet. So what are you waiting for? Let's get building!

Item Contents

A single Q-Rax Workbench package includes:

- 4 L-Shaped Upright Beams
- 4 Short Beams
- 4 Long Beams
- 2 MDF Boards
- 4 Moulded Feet/End Caps

Specification

Product Specifics

Dimensions: 120cm W x 60cm D x 90cm H
Weight Capacity: 200kg of Evenly Distributed Weight

Materials: 1.2mm Steel, 7.6mm MDF
Weight: 11.7kg

Monster Guarantee

If you wish to return a product in perfect working order, we provide a 14 day returns policy as long as the item is unopened and in a resalable condition. A 12 month warranty applies to all of our electrical products; we will cover labour, parts and delivery charges. Our policy is to try and fix the item before arranging an exchange or refund. If for any reason a part is missing please get in touch with us within 7 days on receipt of your order. You can call or email our friendly and helpful Customer Support Team. For full terms and conditions contact our Support Department via the details on the Contact Us page.

Specification

Product Features

- 1) L-shaped Upright Beam
- 2) MDF Boards
- 3) Short Beam
- 4) Long Beams
- 5) Moulded Feet

User Guide

Assembly Instructions

1) Group parts together and lay them on the floor.

2) Attach 4 moulded feet to the end of 4 L-shaped upright beams.

3) Before assembling, ensure you are assembling the beams the correct way up. Please use the image below for you reference.

Q-Shaped Holes

The short and long beams will slot into place.

User Guide

Assembly Instructions

4) Take two of the L-shaped upright beams and attach a short beam across the bottom to connect the two, creating a U-shape. Push the beams into the bar locking system – remember to have them the right way up, and then hammer into place. Repeat this process on the other two upright beams.

5) Connect the two U-shapes together using 2 long beams.

6) Slot one MDF board into this metal shelf, securing with a tap of the mallet. Your lower shelf is now complete.

Please Note: Please treat the MDF boards with varnish or mould prevention products to prolong the life of the product.

7) Repeat this process either side of the rack, first with two small beams for the sides then with two long beams for the front and back. Slot in the MDF board. This will create you workbench table top.

12) Your Q-Rax Workbench should now be complete.

Please Note: We recommend evenly distributing the weight of your tools.

Troubleshooting

Resolution Guide

Please read through the guide below if you have any issues or faults with your Q-Rax Workbench.

Q: There are parts missing from my order.

A: If a part is missing please get in touch with us within 7 days on receipt of your order. You can call or email our friendly and helpful Customer Support Team. Please see details on the Contact Us page.

Q: The MDF has begun to warp or change shape.

A: Do not use this Q-Rax Workbench for storage in a humid environment as the included MDF is untreated and is therefore susceptible to bend in an extremely damp or warm room. Other MDF can be cut and used by the customer.

If you would like to reduce the potential of warping, please feel free to personally treat the MDF with a varnish or paint.

Q: What kind of tools should I use to assemble the Q-Rax Workbench?

A: The only tools required to assemble a Q-Rax Workbench is a rubber mallet- available to buy at Monster Shop.

Q: I'm worried the MDF shelves might grow mould in my garage.

A: We recommend you treat the MDF with mould prevention products. They are very accessible and cheap from good DIY stores.

Safety Advice

Safe Working Practice

Please read through the safe working practice to ensure prevention of injury or damage to the device.

Do not use the Q-Rax Workbench in areas of high temperature or humidity as the MDF boards are untreated and may warp or become uneven.

Do not use corrosive cleaning equipment when cleaning your workbench, as this may erode the paint.

Do not exceed the weight capacities, detailed on the Specification page.

Please Note: These capacities are based on the weight distributed across the whole workbench.

Always keep the weight evenly distributed to avoid damage to the rack or MDF and to prevent the rack from falling over.

Be careful when using a hammer to assemble.

Ensure that each beam is properly hammered into place before continuing with the assembly process.

Be sure that each MDF board is slotted into the shelf correctly before you begin storage on the racking.

Ensure the moulded feet are attached correctly to prevent any potential injury.

Treat the MDF boards with varnish or mould prevention products if using in a humid environment.
