# Pop Up Power & USB Socket

Try **Monster** - Buy **Monster** - Be **Monster**

# Specification

## Product Description

The next step in the awesome evolution of power sockets is here. Please welcome the pop-up power socket. It's the space-saving, modern solution to the power needs of a busy and productive home or workplace, and gives you space to plug in 3 standard UK plugs PLUS 2 USB devices.

Hidden from view until you need it, the pop-up power socket does exactly what you'd expect. Press down the top cap and it pops up from its hiding place under the floor or other surface, and can then be pulled up to full extension, ready to take up to 3 x standard UK plugs and an additional 2 x 500mA USB chargers. When you don't need to use the pop-up socket anymore, simply pop it back down again and it's hidden from view.

## Product Specifics

Dimensions: 130mm (W) x 355mm (H) x 130mm (D)  
Hole Cut Out Diameter: 102-105mm

## Technical Information

Plug Sockets: 3 x 13amp BS 3-Pin Plug Socket

## Monster Guarantee

If you wish to return a product in perfect working order, we provide a 30 day returns policy as long as the item is unopened and in a resalable condition. A 12 month warranty applies to all of our electrical products; we will cover the cost of labour and parts. Our policy is to try and repair the item before arranging an exchange or refund.

If for any reason a part is missing please get in touch with us within 7 days on receipt of your order. You can contact our friendly and helpful Customer Support Team via email or call. For full terms and conditions contact our Support Department via the details on the Contact Us page.

# Specification

## Product Features

- 1) Top Cap
- 2) Plug Socket
- 3) USB Port

# User Guide

## Installation Instructions

Please read and follow these simple instructions to install your Pop-Up Socket.

- 1) Observe the area where you want to install the Pop-Up Socket. Ensure there are no obstructions underneath the surface.
- 2) Check for an electrical supply. You need to install the Pop-Up Socket in reaching distance for the lead.
- 3) Using the correct equipment (hole saw) cut a hole the correct dimensions for the socket.
- 4) Remove the retaining nut from the Pop-Up Socket. It is located underneath.
- 5) Put the Pop-Up Socket in its location by pushing the base into the created hole.
- 6) Replace the retaining nut. This will need to be fed through the wire. Tighten into place.
- 7) Push the socket into mains power supply and turn on.
- 8) To use, simply press the Top Cap to pop up, then pull the unit up. Push down to close.

# Safety Advice

## Safe Working Practice

Please read through the safe working practice to ensure prevention of injury or damage to the device.

We recommend using a competent person for the installation of this socket.

Only suitable for indoor installation, do not install this item outdoors.

Do not operate the device in areas of high temperature or humidity as the socket may not function correctly.

Before starting any electrical work, isolate the mains power supply and refer to the fitting instructions.

For a safe installation and connection ensure that the earth is connected.

Wire and wiring colours are in accordance with the current IET Wiring Regulations.

Before use we recommend that a socket test is carried out.

Do not Megger test this socket as it will damage the USB charging circuit.

Ensure the switches are turned off when the socket is not in use.

Cut the correct sized hole. The dimensions are on the Specification Page.
