

Information for Users of Windows 8 / Windows 10

We at Monster Group UK strive to ensure our products are the best they can be. Sometimes, this means we update or upgrade our products to ensure they run to their maximum efficiency, and to improve your experience with them too.

For ease of use, we have made our Installation Guide of your new Vinyl Cutter easier than ever. Please read this information carefully as this will make the installation and overall use of the Vinyl Cutter simpler and quicker.

- 1) Open the main Instruction Manual of the Vinyl Cutter.
- 2) In the section 'Installation Guide', go to 'Computer Connection'. At the bottom of this sub-section, you will notice the sentence; 'Windows 8.1 and 10 customers will first need to "disable driver signature enforcement" before installing the drivers', followed by a link.
- 3) As we have upgraded the Vinyl Cutter's hardware, this step is **no longer required**.

Instead, please follow these simple steps:

- 1) Connect your Vinyl Cutter with your computer or laptop via a USB cable.
- 2) From 'Start', go to 'Device Manager' > 'Ports (COM&PLT)' > 'USB Serial Port (COM2)'. Double click this.
- 3) If you are connected to the Internet, the installation guide will now take place automatically.

Information for Users of Windows 8 / Windows 10

4) If you are **NOT** connected to the Internet, you will need to install the Driver manually by now inserting the CD included into your computer/laptop. Open up the files on this CD. There will be a file named 'USBDriverInstall...'. Once you double-click this, wait for the installation process to finish automatically.

You can now return to the main Instruction Manual herein, which will run through some of the operation procedures and system capabilities of your product.

Monster Group (UK) is one of the UK's fastest growing online retailers. We supply a diverse range of products which offer exceptional value for money.
