Old Design

There are some edits on the current Candy Cart sample sent. All dimensions will stay the same, but the lower side panel and the upper side panel need editing.

New Design

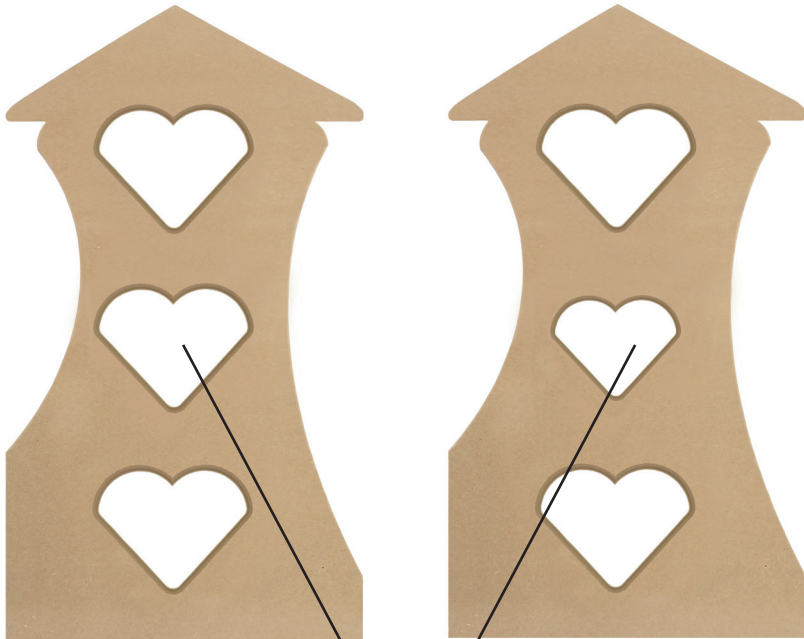

There are several design changes of the upper and lower side panels as you can see when you compare the old and new design. They will be described in detail.

Upper Side Panel

OLD DESIGN

NEW DESIGN

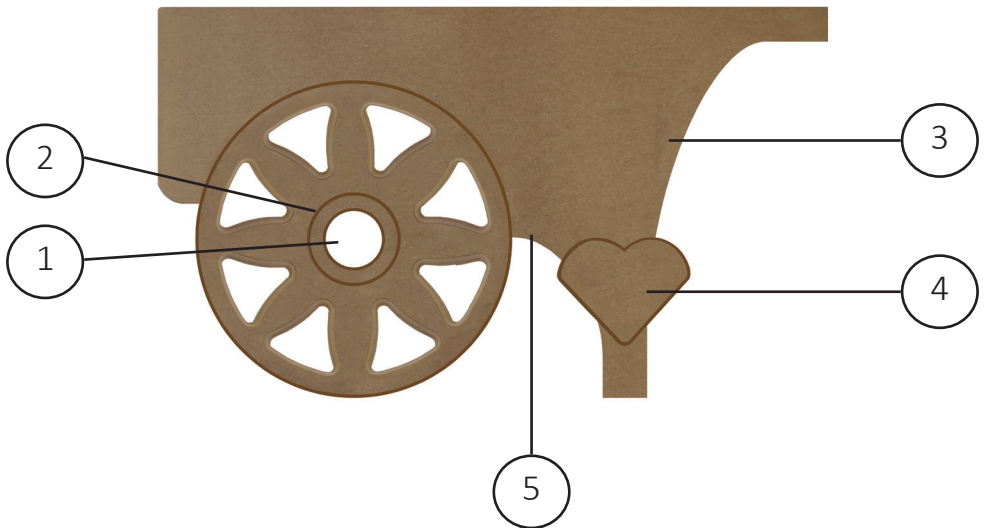

Please note the different size of the middle heart.

For the upper side panel, there is only ONE change:

1) The middle heart shape is slightly smaller than the other two. The top and bottom heart are the same size as the old design. Please make sure the hearts are evenly spaced and the middle heart is central when manufacturing.

Lower Side Panel

NEW DESIGN

For the lower side panel, there are FIVE changes:

Please Note: The darker lines are engraved lines.

- 1) The wheel has the same holes, but there will be a central hole.
- 2) The wheel has a circle shape engraved around the central hole.
- 3) The overall shape/ handle area is a different shape to the old design. It is a lot more curved in shape.
- 4) The 'foot' has a heart shape.
- 5) The wheel is slightly further away from the foot - on the old design they are a lot closer together. It is also curved in design - before it was straight.
