## Monster Guarantee

If you wish to return a product in perfect working order, we provide a 30 day returns policy as long as the item is unopened and in a resalable condition.

A 12 month warranty applies to all of our electrical products; we will cover the cost of labour and parts. Our policy is to try and repair the item before arranging an exchange or refund.

If for any reason a part is missing please get in touch with us within 7 days on receipt of your order. You can contact our friendly and helpful Customer Support Team via email or call. For full terms and conditions contact our Support Department via the details on the Contact Us page.

# ASSEMBLY GUIDE

Step 1 - Begin assembling your dog kennel by fitting two adjacent panels together. There should be small indents in the front and rear panels to help indicate where the side panel fits between them.

Step 2 - Once you have the two panels in the correct position, use the longer "A type" 45mm screws and insert them into the pre-drilled holes on the front/rear panels.

Step 3 - Repeat this process for the remaining panels and your kennel should look like the above.

Step 4 - Insert the two floor panels. The floor panel that should be inserted first is the panel with the small lip. This panel will help hold the second panel in the kennel and provide secure flooring.

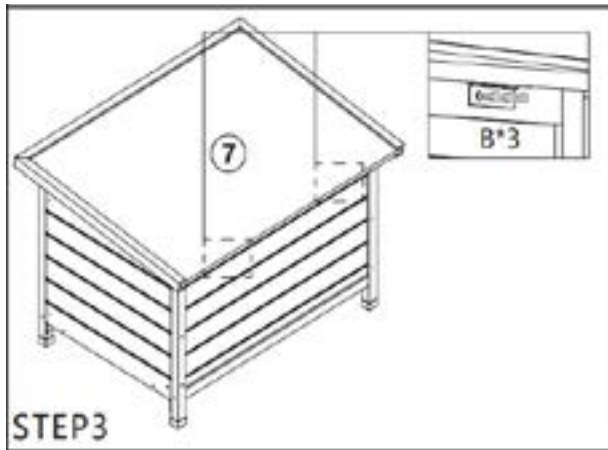

Monster Group UK Limited's liability will be limited to the commercial value of the product only.

# ASSEMBLY GUIDE

Step 5 - Once you have assembled the base on the kennel attach the roof on top.

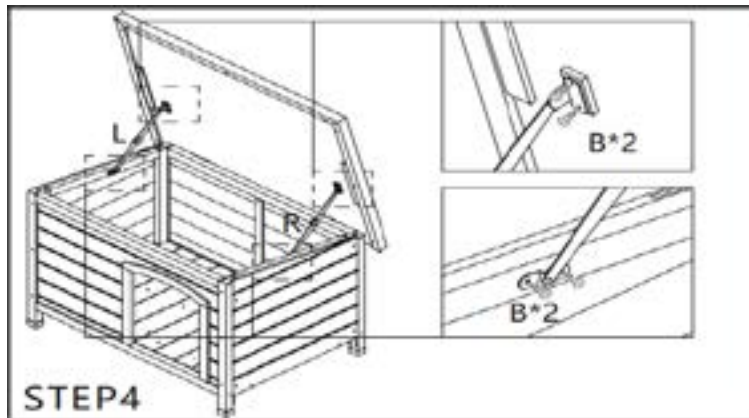

Use the hinges at the rear of the roof and align them with the predrilled holes on the panel before screwing all 6 "B type" 16mm screws into place to secure the back of the roof.

Disclaimer: Please be careful if assembling outside in windy conditions.

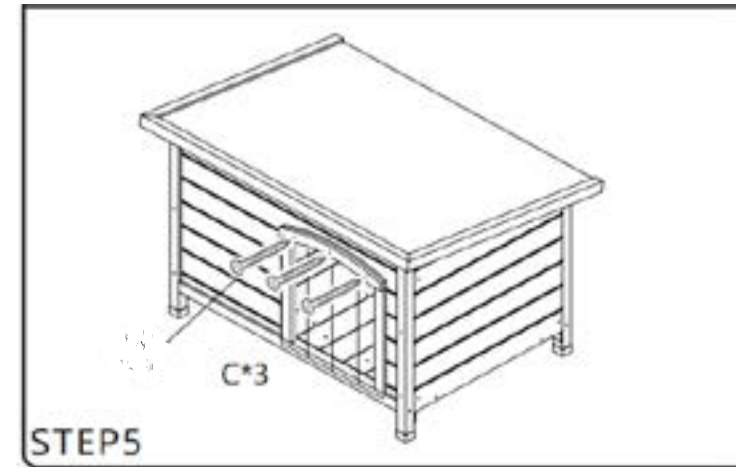

Step 6 - Once the hinges of the roof have been attached lift the roof open. When open align the brackets as shown below with the L-shape bracket end matching the holes on the roof. Once the bracket is fully aligned screw into place using your remaining "B type" 16mm screws and repeat the same process for the second bracket.

We recommend attaching the bracket inside the kennel before attaching to the roof but you can assemble in whichever order is most comfortable for you.

# ASSEMBLY GUIDE

Step 7 - Use 3 of the "Type C" 25mm screws and attached the door panel with plastic flaps to the front of the kennel and assembly is now complete.

## SAFETY ADVICE

- For pet use only.
- Supervise your pet during use.
- For your pet's safety, inspect regularly and remove if damaged.
- Do not drag on the floor.
- Do not sit or stand on this unit.
- Do not lift when in use or with pet.
