# Shop Shelving Corner Unit

Try **Monster** - Buy **Monster** - Be **Monster**

# Specification

## Product Description

This shop corner unit can be joined with any of the A1200, B1200, C1200 or K1200 units to create a larger 'L' shaped counter, but is equally capable of standing proudly by itself as an attractive and functional addition to your retail space.

Display your items to customers to maximum effect on four levels- three shelves and on top of the unit as well- and see how much better everything looks against its stylish wood-effect laminate finish and curvy frontage.

You could also put this shelving corner unit to work next to your point of sale to store any handy items you and your colleagues might need, such as plastic bags, till rolls and emergency coffee supplies.

## Product Specifics

Dimensions: 600mm (W) x 600mm (D) x 900mm (H)

## Monster Guarantee

If you wish to return a product in perfect working order, we provide a 14 day returns policy as long as the item is unopened and in a resalable condition. A 12 month warranty applies to all of our electrical products, we will cover labour, parts and delivery charges. Our policy is to try and fix the item before arranging an exchange or refund. For full terms and conditions contact our Support department via the details on the Contact page.

# User Guide

## Assembly Instructions

Please follow these simple instructions to assemble the retail counter.

### Step 1:

Identify yourself with all the parts using the images below. Work in an appropriate area, with plenty of room.

## Assembly Instructions

### Step 2:

Using the Bolts and Cross Dowel Nuts, attach parts A and E the side panel C. Turn the parts on the side, so C becomes the base.

### Step 3:

Slot the base panel B into C and the bottom of A. Attach D using the Bolts and Cross Dowel Nuts, to the shelves, whilst simultaneously slotting the base panel B into it. This part can be a little tricky when lining up all the parts with the Bolts.

**Please Note:** When slotting in the base panel B, take care. You will need to slightly bend the wood. Do not over bend or use a lot of force when slotting them in the grooves.

### Step 4:

Turn the counter the correct way up. Using the screws, attach the counter top F. Your counter should now be complete.

# User Guide

## Product Recommendations

Our large range of retail counters can be purchased separately or in money saving bundles to create a large retail counter or several customer facing display cabinets. Check out these bundles we recommend...

Zenith Set- A1200, B1200 & LM60

Nova Set- A1200, C1200 & LM60

Titan Set- A1200, K1200 & LM60

Pulsar Set- K1200, K1200 & LM60

# Troubleshooting

## Resolution Guide

Please read through the guide below if you have any issues or faults with your counter. The information covers and resolves the majority of frequently asked questions.

**Q: The bolts are not screwing through the side panel into the shelf.**

**A:** If resistance is experienced when inserting the bolt into the cross dowel nut, try using a screwdriver to rotate the nut 180 degrees.

**Q: Nuts/bolts will not fit into the holes correctly.**

**A:** There may be some saw dust debris in the holes, which require removing before building commences.

**Q: There are pieces missing from my retail counter.**

**A:** Lay all parts out on the floor to double check the parts from the Item Contents page and be sure to look inside the counters original packaging. If the pieces can't be found you can contact our Customer Support department via the details on the Contact page.

**Q: Is my counter fire resistant?**

**A:** The counter is not fire resistant.

**Q: Can I paint my counter?**

**A:** We do not recommend you paint your counter.

# Safety Advice

## Safe Working Practice

Please read through the safe working practice to ensure prevention of injury or damage to the counter.

Do not store the counter in areas of high temperature or humidity.

There may be some sawdust in the holes, remove before building.

Prolong the life of the counter by keeping clean.

Use appropriate cleaning products to clean the wood and glass.
