

# Oops!

Our tireless Monsters have made a bit of a boo-boo with this product...

You'll notice in our Instructions Manual that temperature is quoted in Fahrenheit. We always like to work in Celsius, so we'd like to tell you here that the range on this scorching product is 0-200° Celsius.

So let's recap: the manual should quote in Celsius, not Fahrenheit. Any quotes made in Fahrenheit should be converted into Celsius. When our Monsters quoted using this product at 360° Fahrenheit, you should instead use it at 180° Celsius.

If you've any problems or need a cool-down of your product, please get in touch with our Customer Support team.
