Mug Safety Data Sheet (SDS)

Section 1: Product and Company Identification

Product Name: 72 White 11oz Mugs (with Gift Boxes)

• **Product Code**: 10411, 10320, 10609, 10412, 211000

• Manufacturer/Supplier: MonsterShop

• Website: https://monstershop.co.uk

Section 2: Hazard Identification

• Classification: Not classified as hazardous under normal conditions.

Potential Hazards:

Physical: Fragile—may break if dropped.

o **Thermal**: Hot liquids can cause burns if spilled or mishandled.

o Sharp Edges: Broken pieces can cause cuts.

Section 3: Composition/Information

Material:

o Main body: Ceramic

o Coating: Food-grade glaze

Box: Cardboard (recyclable)

• Compliance: Meets safety standards for food contact materials.

Section 4: First Aid Measures

- **Eye Contact**: If ceramic fragments or dust come into contact, rinse eyes thoroughly with water. Seek medical attention if irritation persists.
- **Skin Contact**: Handle broken ceramic with care to avoid cuts. Wash any cuts with soap and water; apply a bandage if necessary.
- Ingestion: Not applicable under normal use.
- **Inhalation**: Not a typical risk. Inhalation of ceramic dust (from breaking or sanding) may cause irritation—seek fresh air if discomfort occurs.

Section 5: Fire Measures

- Fire Risk: Non-flammable.
- Suitable Extinguishing Media: Not applicable.

Section 6: Accidental Release Measures

- Spill/Breakage:
 - o Sweep broken ceramic pieces carefully to avoid cuts.
 - o Dispose of in a puncture-proof bag or container.

Section 7: Handling and Storage

- Handling:
 - o Do not drop or subject to strong impact.
 - o Avoid overfilling with hot liquids to prevent burns.
- Storage:
 - Store in a cool, dry place.
 - o Keep away from children to avoid accidental breakage.

Section 8: Exposure Controls/Personal Protection

- Personal Protective Equipment:
 - Not required under normal conditions.
 - Use gloves and protective eyewear if handling broken pieces.

Section 10: Stability and Reactivity

- Stability: Stable under normal conditions.
- Reactivity: Non-reactive.
- Hazardous Decomposition Products: None under normal use.

Section 11: Toxicological Information

- Routes of Exposure: None under normal conditions.
- Health Effects:
 - Acute: None expected.
 - Chronic: Prolonged inhalation of ceramic dust (from breakage or sanding)
 could cause respiratory irritation.

Section 12: Ecological Information

- Environmental Impact: Low.
- Disposal: Ceramic material and cardboard boxes are recyclable where facilities exist.

Section 13: Disposal Considerations

- Dispose of broken mugs in non-recyclable waste unless recycling facilities for ceramics are available.
- Cardboard gift boxes can be recycled.

Section 14: Transport Information

- Shipping Classification: Not classified as hazardous.
- Packaging: Ensure mugs are securely packaged to prevent breakage.

Section 15: Regulatory Information

• **Regulations**: Complies with food-grade material standards and ceramic safety regulations.

Section 16: Other Information

- Additional Notes:
 - o Inspect mugs for chips or cracks before use.
 - Handle with care to ensure longevity
