Troubleshooting

Resolution Guide

Please read through the guide below if you have any issues or faults with your device. The information covers and resolves the majority of frequently asked questions.

Q: Question

A: Answer

Safety Advice

Safe Working Practice

Please read through the safe working practice to ensure prevention of injury or damage to the device.

Do not operate the device in areas of high temperature or humidity as the machine may not function correctly.

Do not use the machine if the adaptor wire is frayed or damaged.

When the device is not in use ensure that the power plug is removed from the socket. This will prevent damage to the appliance through power surges.

This appliance can be dangerous if the power cord or wires come into contact with water. Attaching a RCD adaptor will instantly cut off the electricity supply to the machine to prevent potentially fatal shocks.

Clean this product after every use and unplug the appliance from the wall whilst cleaning.

Please do not insert animals or objects other than poultry into the machine. This can result in damage to the rubber fingers and spinning disc which will affect the working order of the appliance.

Please do not insert any live poultry into the machine, animal cruelty is a criminal offence.

Only use this appliance with whole and intact poultry to avoid damage and bruising to the flesh of the bird.

This machine can hold up to 10 small birds, overfilling the barrel can cause damage to the machine and prevent it from working correctly. This capacity is dependent upon the size of the poultry, as different breeds of bird may be smaller or larger than average.
